EDUCATION

SECONDARY SCHOOL

Tagore Matriculation High School

2014 - 2015

BACHELOR OF ENGINEERING

Karpagam Academy of Higher Education

2015 - 2019

WORKED ON PROJECTS

TWF -THEWATERFIRM

- TWF Consumer
- TWF Admin
- TWF Lead Calendar
- Graph-Based Data Visualization & Filtering: Displayed water consumption trends (daily, weekly, monthly, yearly) with building-wise and own custom calendar-based filtering.
- Billing & Payment System: Integrated monthly bill generation and payment processing.
- Role-Based Access Control & Multi-App Management: Supported multiple user types (Admin, Consumer, Guest, Tenant) with an admin app to manage users, data, and billing.

FMCG

- FMCG Vendoe
- FMCG Consumer
- Direct Vendor-to-Consumer Purchasing: Allowed consumers to buy bulk daily-use products directly from vendors, bypassing dealers.
- Real-Time Stock Management: Vendors could upload stock in the vendor app, which reflected in real-time on the consumer app.
- Stripe Payment Integration: Implemented secure and seamless payment processing using Stripe.

DOXWIZ

- Medqwiz Consumer
- Medqwiz Vendoe
- Medqwiz CRM
- Consumer App Enabled users to purchase medical products either through direct payment or by earning coins through three types of in-app games (Quiz, Drag and Drop, Excavation, and Search in the Dark). Included a blog feature for daily health-related news updates.
- Vendor App and CRM Allowed to update product listings, manage stock, and oversee vendor operations.

ZUNOY

- Watch Tower
- Form Flow
- Hrms Employee
- Implemented a feature to check if a website is up or down, measure network traffic, and display detailed information on downtime (why, duration, and reasons).
- Employee attendance system Created an attendance system for employees to punch in and out daily. Integrated Google Maps for location tracking, a custom leave calendar, company details display, and payslip generation.

ADANI

- Map Integration: Displayed locations consuming solar power on a map with real-time data updates.
- Graph-Based Data Visualization: Showcased solar power consumption trends through interactive graphs.
- Real-Time Monitoring: Tracked electricity consumption and provided insights into usage patterns.
